DAMAGED INTAKE DISRUPT WATER SUPPLY

SECTIONS OF DAVID'S HILL IN EAST RURAL ST. ANDREW AFFECTED

The National Water Commission is advising its customers in a section of **David's Hill in East Rural St. Andrew** that operations at the **Pulpa Spring Water Facility**, have been suspended due to damage intake at the water source.

The repair is currently being carried out and is estimated to be completed on or before **Friday, January 21, 2022.**

The National Water Commission apologises for any inconvenience caused and seeks to assure its valued customers that every effort will be made to restore water supply within the shortest possible time.
