**HIGH TURBIDITY LEVELS IMPACTING WATER SUPPLY DISTRIBUTION  
KENSINGTON CUSTOMERS IN PORTLAND AFFECTED**

The **National Water Commission** is reporting that high turbidity levels at the water source have forced the shutdown of operations at the **Kensington Water Facility in Portland.**

Customers are being advised that the facility will be re-started as soon as conditions are favourable for water supply distribution.

The NWC apologizes to its valued customers for any inconvenience caused and seeks to assure them that every effort is being made to restore their regular water supply in the shortest possible time.
