High Turbidity Disrupts Operations at Two Meetings Treatment Plant in Manchester

The National Water Commission is monitoring the inflow of water at the Two Meetings treatment plant in Manchester, which it has had to shut down due to high levels of turbidity.

The Commission is working to resume operations as soon as the turbidity subsides.

The affected NWC service areas include:
Baileston, Two Meeting and surrounding areas

The NWC apologises for any inconvenience caused and craves the patience and understanding of its valued customers.
