For Immediate Release

REVISED WATER SUPPLY SCHEDULE FOR KINGSTON & ST ANDREW

The National Water Commission (NWC) is advising that the water supply schedule which was implemented on December 28, 2018 for some Kingston & St. Andrew areas affected by the Ferry Water Supply Pipeline break and other network issues, has been revised. This has occurred as a result of an assessment of the current supply arrangement, which has yielded mixed results for particular areas.

Therefore, effective immediately the following new schedule will apply to the communities listed below:

Alternate Nights from 6:00 pm to 6:00 am

- Waltham Park Road
- Olympic Way
- Bayfarm Road

Alternate Nights from 6:00 pm to 6:00 am

- Molynees Road
- Zaidie Gardens
- Moreton Park
- Maple Leaf Mews
- Dunrobin Court

Daily from 6:00 am to 6:00 pm

- West Kings House Road
- Kingsway
- Devon Road
- Devon Close

Kindly note that the abovementioned areas will experience very low water pressure outside of these supply periods and that the company's technical teams will continue to monitor the situation of each area and provide updates as these become necessary. Additionally, the NWC is advising that all

previously published areas, not indicated on this updated listing, will continue to be supplied as scheduled.

We sincerely apologize for any inconvenience caused.
