## UPDATE

### DROUGHT CONDITIONS AFFECTING SYSTEMS IN ST. JAMES AND HANOVER

The National Water Commission (NWC) is reminding customers served by the **Endeavour** facility in **St. James** and the **New Milns** facility in **Hanover**, that the facilities are still impacted by drought conditions. As a result, customers will continue to experience intermittent supply, low water pressure or no water.

Areas affected include

#### In St. James

**Hampton, Hopeton, Mount Horeb, Fern, Rushea, Plum and Barnett Bush.**

#### In Hanover

**New Mills, Welcome, Cacoon, Nyere Farm, Haddington, Watford Hill, Woodland** and surrounding areas.

The NWC urges customers to store water for use and advises that normal operations will resume as soon as the condition improves.
