## Update

### **NWC WORKING TO RESTORE WATER SUPPLY TO SECTIONS OF HANOVER**

The National Water Commission (NWC) is advising that, efforts to resume operations at its **New Milns Pumping station** in **Hanover**, are being hampered by procurement challenges. As a result of these challenges it is not expected that the facility will be fully operational before **November 30, 2019**.

In the meantime, the NWC will continue to truck water while it works on a temporary arrangement to provide water on a regulated basis.

Affected areas include: **New Milns, Welcome, Cacoon, Nyerere Farm, Haddington, Watford Hill** and **Woodland**.

The NWC regrets any inconvenience this may cause and continues to crave the patience and understanding of its valued customers.

-End-
